

Portraits

HAVE A LOOK THROUGH MY PORTRAIT GALLERY. YOU'LL BE DRAWN TO SOME IMAGES MORE THAN OTHERS.

Who are the images for and how will they be displayed and where will they live? We'll have a chat about all of the above.

I'm not on the high street so if you'd like a mixture of location and studio images that's possible. Location shoots are informal and we're open to the elements. Studio photography is more controlled and it's a calmer experience, that is unless we're photographing your children and then it's all hands on deck.

Where the shoot is held will dictate what you wear. For a location shoot informal clothing is perfect. Consider bright colours, otherwise you'll merge into the background.

You may get muddy; bring wellies and tissues if you have little ones.

You may need a change of clothing if we get to the beach.

If the shoot is just for you then bring a change of outfits, I can organize professional make-up too.

It takes time to relax into a photography session. I'll explain what I'm searching for and we communicate a lot.

Feel free to contact me for print prices.

BE BRAVE AND EMBRACE YOUR EXPERIENCE!
